THE SECT! TALK OF DEFENSE

The Honorable William P. Clark Assistant to the President for National Security Affairs The White House Washington, D. C. 20500

Dear Bill:

The proposed NSDD enclosed calls for establishing a National Policy for Operations Security. This proposal was prepared for the SIG(I) by the Interagency Group (Countermeasures) and is aimed at strengthening safeguards against the hostile intelligence threat. It is forwarded with my approval and endorsement.

Implementation of this measure will require departments and agencies to institute operations security (OPSEC) programs for evaluating whether classified aspects of their activities are being revealed through indicators readily apparent or available to hostile intelligence collectors. The proposal also provides that, under the aegis of the Interagency Group (Countermeasures), an Operations Security Advisory Committee be established. Chaired by a senior representative of the Secretary of Defense, this committee will have no vested authority but, in the main, will serve to (1) provide recommendations and advice as requested; and (2) coordinate operations security matters that cut across department/agency lines.

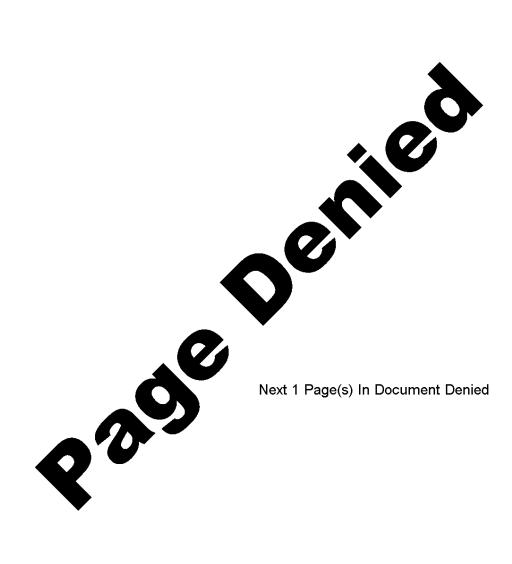

This is one of several SIG(I) actions that I had indicated previously would be emerging in the May-June timeframe. Where appropriate, such actions will be forwarded promptly to you.

Yours.

WillKam

Casey
